

# Nursery News September 2016

## This Month's Learning & Activities

Our theme for September will be Harvest festival. We will be looking at how things grow and the different foods that grow from the ground.

We will be visiting the church on Wednesday 28<sup>th</sup> September. We are asking for any dry or tinned food before this date to take as a donation to the church for people in need.

## Key Person Arrangement

To promote consistency and ensure that your child(ren)'s needs are being met by the people who know them best, we are introducing primary and secondary keypersons system where every child will have alternative carer in the absence of the main one. Details of every child's keypersons have been updated on the Baby's days nursery software, as well as on the keyperson's board in every room. You can also stop by the office to get this information.

## Birthdays

Harry Brooksbank, and Eleanor Crutchley

## Policy of the Month

We are introducing policy of the month to encourage discussions around key policies and promote practitioners understanding of their application. This month we are focussing on Safeguarding / Child protection Policy at our monthly staff meeting on 06/09/2016, we encourage parents to join us from 6:00-6:30PM. A copy of the policy is available on our parent information board, please feel free to ask for a copy in the office.

## Date for your diary – 08/09/2016

To mark this year international literacy day, we invite parents and carers to come and be part of our story reading session. Please send your child to the nursery with their favourite book from home so we can enjoy varieties of books together.

## Nursery News

\*We would like to wish Becky Thorpe a happy maternity leave and hope that the little one comes safely.

\*We would like to welcome Jessica Wray to the team, she is joining us on a Level 2 apprenticeship scheme and will be moving through all the rooms throughout her training. Please make her feel welcome.

\*We have now migrated to the Baby's days nursery management software. This system allows parental access thereby giving you the opportunity to relate to your child's key person. You can also input observations that you have made about your child and you are able to access their daily diaries on the system.
